BUILDING ENGAGEMENT AT SIAM

BE@CSE27

A BRIGHTER SCIENTIFIC FUTURE IS ON THE HORIZON

We are pleased to announce a program designed to support individuals from all STEM groups while also catalyzing change in the community to create a more vibrant and modern scientific environment.

Organized by **Sustainable Horizons Institute**, the next program, **BE@CSE27**, will be held during the Society of Industrial and Applied Mathematics (SIAM) Conference on Computational Science and Engineering (CSE27), February 22-26, 2027, at the David L. Lawrence Convention Center, Pittsburg, PA, U.S.

Your sponsorship will provide funding for students from all over the country. **Activities include a full technical conference, tutorials, research presentations, and small learning groups (Guided Affinity Groups) with daily meetings.** By supporting students, you help encourage a variety of voices in STEM.

Key Benefits:

The Building Engagement program **provides scientific training, mentoring, and career and professional development** to students who aspire to broaden their experience in research based professional activities.

The program also works to **catalyze change** in the community to create a more fun and vibrant society by providing opportunities for scientists to:

- Get involved as a volunteer
- Learn how to create a more modern and welcoming scientific community

Past Participants Quotes:

"The BE program wasn't just a community and a scientific family I became a part of, it helped me to really understand things I didn't even know I wanted before. It's helped to define a lot of my goals going into my fifth and final year of school."

"There really is no telling where I'd be right now, had I not participated in the BE program. But, chances are, I would not have had the courage to make a change [and switch into a mathematics program]. The Mentor Protégé Program was also incredibly influential to me."

Sponsorship Packages Available

SUSTAINABLE HORIZONS INSTITUTE

Building Engagement at SIAM

BE Participants at the MDS24 Conference.

Sustainable Horizons Institute invites you to show support for an engaging and fun community by providing travel support for talented students from all over the country. Please support the **BE@CSE27** through one of these opportunities.

STUDENT SUPPORT OPPORTUNITIES

Executive	$75,000	Support approximately 13 students
Champion	$53,000	Support approximately 9 students
Supporter	$35,000	Support approximately 6 students
Premier	$18,000	Support approximately 3 students
Advocate	$12,000	Support approximately 2 students
Student and Mentoring Events	**$ 6,500 Mentoring dinner** **$ 4,000 Guided Affinity Group Breakfast** **$ 3,500 Lightning Talk Reception**	

*we promote all our sponsors at our events and our channels. Partial Support is also welcome

For more information contact **info@shinstitute.org**

We gratefully acknowledge in kind support from the Society of Industrial and Applied Mathematics.
